BACKGROUND:

- A. The Métis of the NWTMN, who reside predominantly along the Slave River and in the area of Great Slave Lake, ratified the *South Slave Métis Nation Declaration* on July 24, 2000;
- B. *Aboriginal Self-Government - the Government of Canada's Approach to the Implementation of the Inherent Right and the Negotiation of Aboriginal Self-Government* states in part that "the Aboriginal peoples of Canada have the right to govern themselves in relation to matters that are internal to their communities, integral to their unique cultures, identities, traditions, languages and institutions, and with respect to their special relationship to their land and their resources";
- C. The Métis of the NWTMN wish to maintain a respectful and cooperative relationship in the tradition of their Elders with respect to the land and resources that they and the Akaitcho First Nations both use;
- D. The NWTMN assert that lands and resources within the Interim Measures Agreement Area are of fundamental importance for the protection of the social, cultural and economic well-being of themselves and their communities;
- E. The Parties signed the *Northwest Territory (South Slave) Métis Framework Agreement* on August 29th, 1996, to guide negotiations under the South Slave Métis Process for the purpose of governing the conduct of negotiations to reach an Agreement-in-Principle. The Parties are currently negotiating an Agreement-in-Principle. Paragraph 2.4 of the *Northwest Territory (South Slave) Métis Framework Agreement* provides that "The Parties, in the course of these negotiations, will discuss measures to protect the integrity of provisions of an Agreement-in-Principle, in particular those provisions relating to land";
- F. The Parties have undertaken to update the Northwest Territory Métis Nation Interim Measures Agreement, signed June 2002, to reflect the devolution of the administration and control of public lands, resources and rights in respect of waters in the Northwest Territories to the Commissioner of the Northwest Territories.

THE PARTIES AGREE AS FOLLOWS:

1. ACKNOWLEDGMENTS

- 1.1 In concluding this Interim Measures Agreement (hereinafter the "Agreement"), the Parties acknowledge the following principles that are foundations of the Agreement:
- a) The Parties acknowledge that the Agreement is necessary in order to advance negotiations and to protect the integrity of the provisions now being negotiated to achieve an Agreement in Principle.
 - b) The Agreement Area, in which the pre-screening process will take place, is both described in writing and is depicted by a line on a map at Appendix 1. The description and the map form part of the Agreement. The description and the map at Appendix 1 are for administrative purposes only in connection with the Agreement.
 - c) The Parties acknowledge that certain activities prescribed by this Agreement to be carried out by Canada or the Government of the Northwest Territories may be carried out by the Mackenzie Valley Land and Water Board (the "Board").
 - d) Canada and the NWTMN will enter into discussions concerning the provision of funding to the NWTMN to implement the Agreement.

2. PURPOSE OF THE AGREEMENT

- 2.1 This Agreement sets up a process whereby the NWTMN will pre-screen applications for activities described in Section 4 of the Agreement ("Activity" or "Activities"), including licences, permits and leases relating to the occupation, use and disposition of lands and resources provided for by statutes and regulations of Canada and the GNWT, pending the negotiation of these matters under the Northwest Territory Métis Nation Lands and Resources negotiations.
- 2.2 The NWTMN will be consulted in matters related to heritage resources in the context of land and resource management.

3. PRE-SCREENING PROCESS

- 3.1 The pre-screening process, more fully described in the Schedules, will work as follows:

- a) Canada, the GNWT or the Board, as identified in the Schedules to this Agreement, will, without undue delay, notify in writing the NWTMN of any accepted applications for Activities within the Agreement Area, or any Activities outside the Agreement Area that could have an adverse effect on NWTMN Métis interests in the Agreement Area;
- b) Canada, the GNWT or the Board, as identified in the Schedules to this Agreement, will make available to the NWTMN any information in their possession necessary to assist the NWTMN to inform itself, review, assess and respond to the application being pre-screened, unless Canada, the GNWT or the Board is prevented by law from so doing;
- c) The NWTMN may undertake community consultations, and commission its own studies to assess the impact of the Activity by applying to the Interim Resource Management Assistance Program or successor program;
- d) Canada, the GNWT or the Board, as identified in the Schedules to this Agreement, will make their staff available to discuss the application and to meet with the NWTMN if necessary;
- e) The NWTMN will base their response in relation to one or more of the following grounds:
 - I. environmental impacts;
 - II. socio-economic impacts;
 - III. impacts on heritage resources; and
 - IV. any other reasonable grounds they deem relevant.
- f) A response by the NWTMN may address the NWTMN Métis' interests in 3.1 (e) by:
 - I. providing available information on these interests;
 - II. proposing a course of action that will address these interests;
 - III. if necessary, providing suggestions for modifying the Activity; and
 - IV. proposing mitigative measures; or
 - V. recommending that the Activity not proceed.
- g) In the event the NWTMN is unable to complete a pre-screening within the time frame specified in the Schedule, the NWTMN may apply in writing to either Canada, the GNWT or the Board, as the case may be, for a time extension, which request will not be unreasonably denied.

- 3.2 Following the response by the NWTMN, reasonable and fair consideration will be given to all information provided in the NWTMN response.
- 3.3 Written notification of the decision made by Canada, the GNWT or the Board, after the NWTMN response concerning the Activity has been taken into account, will be provided in a timely fashion.
- 3.4 Canada, the GNWT, the NWTMN and the Board will treat all information provided under this Agreement with confidentiality pending negotiation of the Protocol in Section 5.3, and will use that information only for purposes of the decision or assessment of the Activity in question.

4. ACTIVITIES COVERED BY THE AGREEMENT

 - a) Disposition of Commissioner's Lands;
 - b) Territorial Lands;
 - c) Forest Management;
 - d) Tourism;
 - e) Territorial Parks; and
 - f) Such other Activities as the Parties may agree.
- 4.3 Canada and the GNWT will consult the NWTMN before proposing any

amendments to legislation and regulations that may adversely affect the implementation of the Agreement or the Agreement itself.

5. SCHEDULES

- 5.1 Schedules, Protocols or both may be developed to identify and address common issues with other Aboriginal peoples.
- 5.2 A Protocol may be attached to the Agreement to address all aspects of the care and handling of traditional knowledge in relation to federal and territorial laws relating to intellectual property and confidentiality of information.

6. GENERAL

- 6.1 Nothing in the Agreement will prejudice any Aboriginal rights that may exist for the NWTMN. Nothing in the Agreement will be construed as an implicit or explicit recognition by Canada or the GNWT of any such rights or of any legal obligations or liability of Canada or the GNWT.
- 6.2 The Agreement is without prejudice to any legal positions of the Parties, and is not legally binding nor enforceable between the Parties.
- 6.3 The Agreement is without prejudice to any positions that may be asserted by the NWTMN, Canada or the GNWT concerning the agreement area to be negotiated under the Northwest Territory Métis Nation Land and Resources Final Agreement.
- 6.4 Consultative arrangements with the NWTMN outside the boundaries of the map at Appendix 1 will not be prejudiced by the Agreement.
- 6.5 In the event a dispute arises between the Parties regarding the interpretation or implementation of the Agreement, the Parties will meet as soon as is practicable to review the situation and attempt to resolve the dispute.
- 6.6 The Agreement may be reviewed and amended with the written consent of the Parties.
- 6.7 The Agreement shall remain in force until the date of the execution of the Final Agreement or until negotiations are terminated by any Party, whichever first occurs. Where any Party intends to take a decision to terminate negotiations, 90 days' notice will be provided in writing and the Parties shall consult prior to the intended date of termination to determine whether matters covered by the

Agreement can continue in another form, in whole or in part.

- 6.8 Following the signing of the Agreement, Canada and the NWTMN will enter into negotiations for the purpose of concluding an agreement regarding economic measures in the interim of a Final Agreement, to the extent that Aboriginal Affairs and Northern Development Canada has a mandate and authority to provide funding for economic development for the NWTMN.
- 6.9 The Agreement will not preclude other capacity building initiatives for the NWTMN, nor restrict the NWTMN from being eligible for programs provided by the GNWT or Canada in accordance with criteria applicable from time to time.
- 6.10 The Parties will review the effectiveness of the Agreement on an annual basis.
- 6.11 This Agreement may be signed in counterpart by the Parties and upon the execution by the Parties this Agreement replaces and supersedes the Northwest Territory Métis Nation Interim Measures Agreement, dated June 22, 2002.
